Construction and demolition of bridges in Kristiansand

As the main contractor, PNC Norge infrastructure's work also included the construction of three pedestrian and cycle bridges in steel, conversion of culvert, rebuilding of pavement, railings and signs, noise shield, as well as water- and wastewater systems.

Impressions

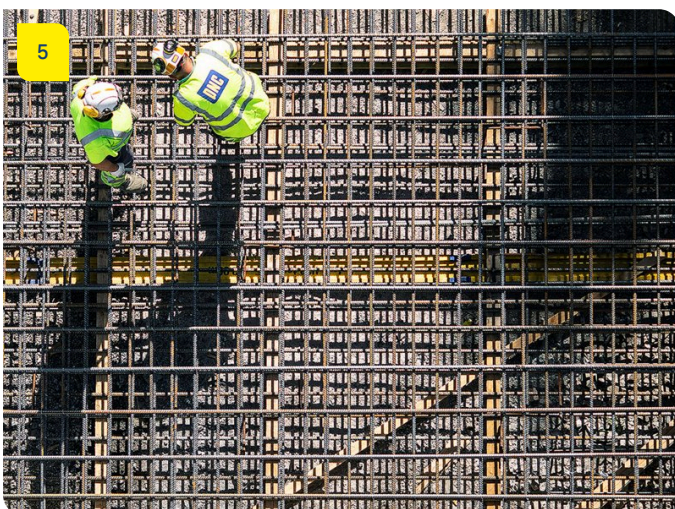

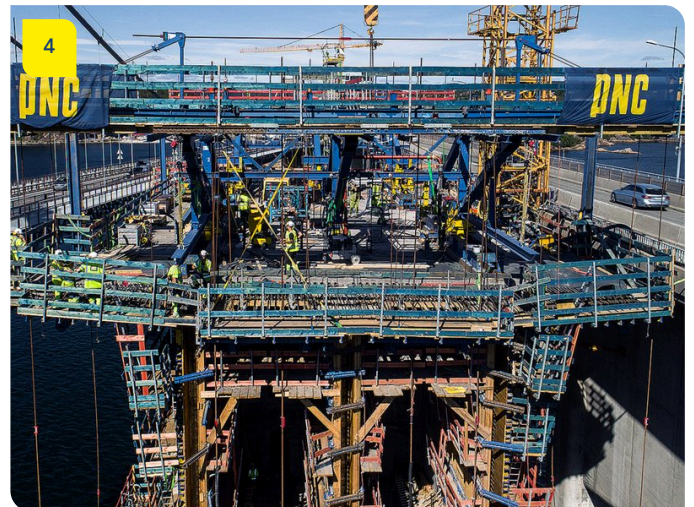

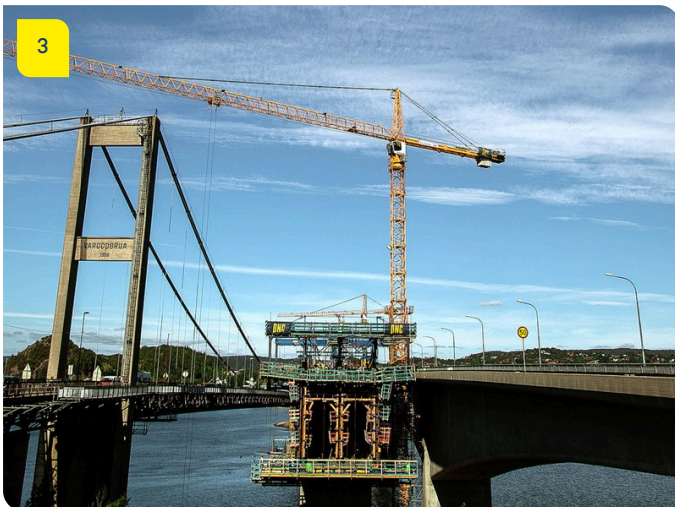

Image notes

1

The new bridge across Topdalsfjorden

The 654m long bridge along with its pedestrian and bicycle path.

3

Work place over Topdalsfjorden

The challenge for PNC was to build the new bridge in between the two existing ones.

5

An eye for detail

Two PNC workers checking the construction of a bridge foundation.

2

East side of the bridge

The new bridge connected to the mainland and in use.

4

Construction site at lofty height

Work was ongoing from 2017 to 2020.
